# Introduction

## Our social responsibility

At Logiflex, we have chosen to be a responsible North American manufacturer by implementing initiatives for sustainable development. As much as possible, we source local materials and partner with suppliers who prioritize clean manufacturing processes. We also consolidate goods during transport to reduce our fuel consumption and we continually make changes that help reduce our waste production.

The company is ISO 9001 certified.

You can consult our eco-responsible approach as well as all our certifications in the [Certifications](#) section of our website. Find out how our products can help you obtain LEED credits and the Logiflex products that are Indoor Advantage Gold certified.

## Conditions of Sale

### Prices

The amounts listed in this document are suggested retail prices and may be changed without notice. Applicable taxes are not included. If you have an open and active account with Logiflex, merchandise will be invoiced at the prices prevailing at the time of shipment. A deposit may be requested if the opening of your account has not been completed or if your account has become inactive.

### Terms of Payment

Net 30 days F.O.B. Sherbrooke, Quebec. The invoice will be assigned the shipping date and is payable 30 days from that date. Logiflex remains the owner of the merchandise until the invoice is paid in full.

### Customized Products (Special Items)

Price requests for customized products or special items can be submitted via the ["Member Zone"](#) section of our website, at [www.logiflex.ca](http://www.logiflex.ca). Our quotations department will study your request and send you a quotation and a technical drawing for approval as soon as possible. Modifications to quotations or technical drawings can be requested the same way. The approved quotation(s) and technical drawing(s) can then be attached to your purchase order.

### Orders

An official purchase order must be issued for all purchases. Your purchase order must contain the following information:

- Your company letterhead
- Your reference number
- The delivery address (with contact name, email and phone number)
- The complete product codes
- Furniture colour(s)
- Quantities
- Descriptions
- Retail prices and net prices
- Project registration number (if applicable), and your approved quotation and technical drawing (for special items).

Please note that a quotation cannot serve as a purchase order.

### Returns

All returns must first be approved by Logiflex. If the return is accepted, a Logiflex customer service representative will send you an official return authorization form in order to facilitate procedures between you, the carrier, and the Logiflex merchandise reception clerk. Additional costs for shipping or other expenses may be applied following any merchandise returns.

### Modifications and/or Cancellations

You have 48 hours from the time we acknowledge receipt of your order to make any requests for corrections or modifications. You may cancel your order during this same 48-hour period. If you would like to modify or cancel your order after this 48-hour verification period, please check with a Logiflex customer service representative. Orders cannot be changed or cancelled if production has already begun or if Logiflex has already received the raw materials.

### Liability

Logiflex's liability ends once the carrier has delivered all items in good condition. A delivery receipt signed by the customer acknowledges that the shipment is complete and has been received in good condition.

### Claims

Logiflex recommends inspecting the shipment before signing the carrier's delivery receipt. You must notify Logiflex of any incomplete shipments or damaged furniture within 30 days after delivery. Requests to replace damaged products can be made via the ["Member Zone"](#) section of our website, at [www.logiflex.ca](http://www.logiflex.ca). Our after-sales service department will examine your request and help you correct the situation.

### Changes

Logiflex reserves the right to make changes to the materials, accessories, components, specifications and designs, and to discontinue collections and/or models, at any time and without prior notice.

### Storage and/or Shipping Fees

According to the terms Logiflex set forth in the transport policy. The transport policy can be consulted online in the Private Space.

### Items Delivered Disassembled

Some items are delivered disassembled, such as empty desks, empty returns, bridges, arched tables, D, P or Q tables, lateral tables, end tables, hook tables, corner tables and extended-corner tables.

### Warranty

Logiflex guarantees to the original purchaser that Logiflex products are free from defects in design, materials and workmanship for the product's lifetime, with certain exceptions.

You may consult the full warranty on the website: [Logiflex Warranty](#)

## Manufacturing Standards (continued)

### Handles

Handles are included with all storage furniture. Refer to each collection's pages for the standard handle used. Glass doors include built-in handles into the aluminum frame. Please refer to the Logiflex accessories selection at the end of this price list on [p. 85](#).

### Grommets

Grommets are included on all work desks, refer to each collection's pages for the standard grommet finish used.

### Locks

Locks are included with all storage furniture, except for those with aluminum doors. The standard is LKSN, satin nickel finish. Please refer to the Logiflex accessories selection at the end of this price list on [p. 89](#).

### Pedestals

All drawers are made of black Medium density fiberboard (MDF) with an average thickness of 7/16".

### Drawer Fronts

A PVC strip 1.5 mm thick is systematically applied along all drawer front edges.

### Finishes

You must specify the desired finish(es) for each item of furniture ordered. Please make your selection(s) from the Logiflex [Colors & Finishes Guide](#).

### Levelers

All furniture items sit on 1" in diameter, white nylon levelers, allowing for up to 1" height adjustment.

### Colors

Colors have to be specified for all furniture items ordered. Consult the "How to Order" section on the product page for further details about the procedure. Consult the Logiflex [Colors & Finishes Guide](#) for the colors and finishes offered. Unless indicated otherwise in the order, the PVC edge will match the color and finish specified.

\* Non recommended color for work surfaces.

\*\* For conference tables with 2 or more parts, we do not recommend the use of colors with irregular and contrasted woodgrain like Chiffon, Audacity or Coastal Pear as it results in a pronounced wood grain mismatch.

Colors may vary from 2% to 5% between tfl and hpl laminates due to different technical applications.

## Appendix F: Monochrom - Manufacturing Standards

### Monochrom Reception Counter Components

- 1 Frame** with Monochrom high pressure laminate applied after assembly for a clean and precise look without visible edges. 5/8" panel construction, on white levelers.
- 2 Front** high pressure laminate recessed 14-1/4".
- 3 Wood inserts.**
- 4 Work desk and storage furniture sold separately and are independent.** The Monochrom reception desks can be combined with all Logiflex collections.

### Information about Monochrom HPL

The Monochrom finish offers an ultra matte surface, low light reflectivity, anti-fingerprint finish and a soft-touch surface. This product can be easily cleaned and requires no special maintenance plan. In addition, the Monochrom finish is antibacterial and resists wear, abrasion, acids, bases and solvents.

#### Properties of the Monochrom finish :

- Matte finish, ultra-soft to the touch;
- Anti-fingerprints;
- Through-color core;
- Scratch resistant;
- Antibacterial.

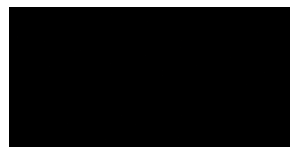

For more information on the Monochrom finish, refer to the [Material Data Sheet](#).

### Application of Colors

We recommend you rely on actual samples to make your color combinations.

#### Frame

The Monochrom reception frame is covered only with Monochrom high pressure laminate, available in two colors:

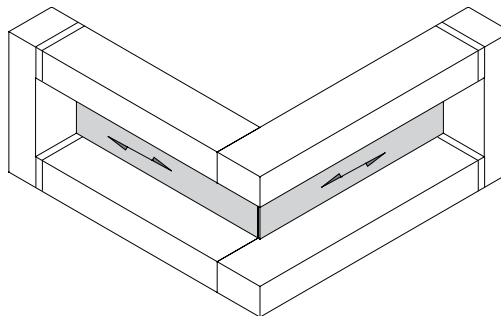

**CBM Carbon**

**CKM Chalk**

#### Recessed Front

All colors available in HPL can be used for the recessed front. The direction of the wood grain is horizontal. [See Appendix A.](#)

#### Wood Inserts

All available wood stain colors can be used for wood inserts. See our complete [Colors & Finishes Guide](#)

#### Piazza Cement : exclusive to the Monochrom collection

The recessed front can also be finished in Piazza Cement (PIC), a new laminate color offered exclusively for the recessed front of the Monochrom reception.

**PIC Piazza Cement**

### Configurations

Multiple configurations are possible by combining one of three Monochrom reception counter models with different desks, returns and cabinets. It is important to consider the following in selecting the desk to combine with the reception counter.

#### MON - Linear Reception Counter:

This counter has been designed to achieve a linear configuration. Both sides of the work desk are visible.

- The width of the desk is the same as the width of the reception desk.
- There are no restrictions on the depth of the desk.

**\*Note:** For stability purposes it is recommended that this reception counter be attached to a desk.

#### MONL/MONR (40" and 46" deep) - "L" Shaped Reception Counter

This counter has been designed to achieve an overall linear configuration. The return of the counter can hide one of the sides of the desk.

- The width of the desk must be 16" less than the width of the counter (Dim. A).
- The depth of the desk must be 16" less than the counter depth (Dim. B)

#### MONL/MONR (70" deep and more) - "L" Shaped Reception Counter

This counter has been designed to achieve an L-shaped configuration. The return of the counter can hide one side of the desk and return.

- The width of the desk must be 16" less than the width of the counter (Dim. A).
- The width of the return will depend on the depth of the desk.
  - If the desk is 24" deep, the return must be 40" less than the counter depth (Dim. B)
  - If the desk is 30" deep, the return must be 46" less than the counter depth (Dim. B)

### So Many Other Possible Configurations

As the reception counter is independent to the desk, you can create different types of configurations. It is therefore important to consider the measurements mentioned on the previous page. Here are only a few ideas of the possibilities.... let your imagination go!

**Example 1:**  
MON linear reception counter, Manhattan desk with E pedestal, right return with 2 lateral filing drawers.

**Example 2:**  
MONR "L" shaped reception counter, Level layering desk FM with drawer support and wire cutout, UN02SL high pedestal.

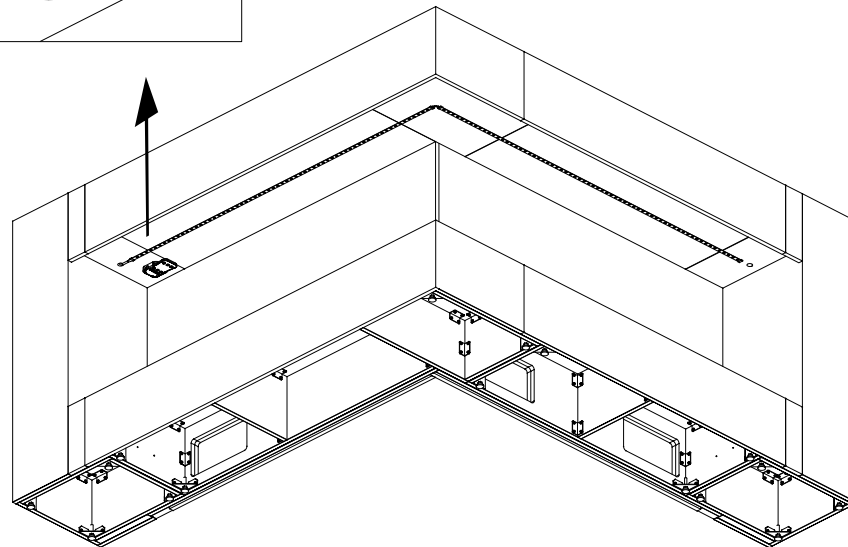

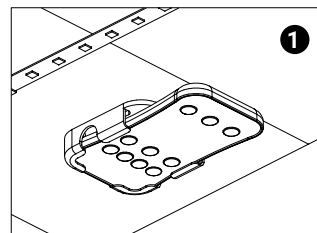

**Example 3:**  
MONR "L" shaped reception counter, Level YM desk, RY return, MOBD mobile pedestal.

### LED Option (D1)

The LED option\* consists of a multicolor LED strip installed under the counter surface, which illuminates the recessed front. A remote control ❶ is located under the countertop (see image below).

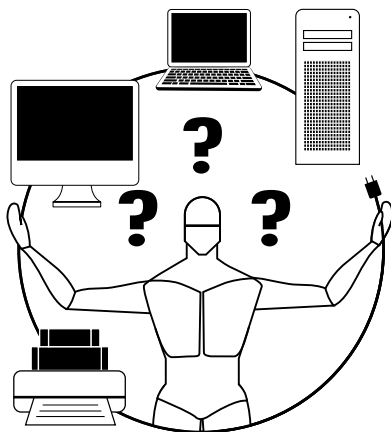

If the LED option has been ordered, the cabinet comes with LED strips ready to be installed under the countertop. Simply remove the plastic film and place the LED strip after assembly.

**\*Note:** It is recommended to order the LED option at the same time as the reception unit. However, it can be ordered later, but please note that a large part of the unit will need to be disassembled in order to run the components through the furniture.

## Appendix G: Calculation/Use of Electrical Components

### An Introduction to Calculation and Use of Electrical Components

Most people are uncomfortable with anything related to electricity. This step-by-step guide is intended for people who are not familiar with electrical installations but who have to specify what system they need when ordering furniture. In this guide, you will learn how to choose and specify the electrical components required for your projects. The list that follows illustrates and identifies each product and describes its applications.

The electrical components are all recognized by the Underwriters Laboratory (UL) as office furniture accessories and are manufactured according to Canadian Standards Association (CSA) and UL electrical standards.

**Note:** All electrical connections must be performed by a certified electrician.

By following these 3 simple steps, you can easily determine the number of circuits required to ensure safe use of your electrical system.

1. Determining the Number of Amperes Required
2. Calculating the Total Amperes
3. Determining How Many Circuits You Need

### STEP 1: Determining the Number of Amperes Required

#### What is Amperage

An Ampere (Amp or A) is a unit for measuring the rate at which electric current flows. All electrical equipment has an amperage rate. By following these few simple steps, you can easily determine the number of circuits required to ensure safe use of your electrical equipment.

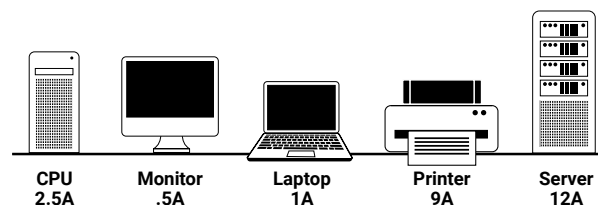

#### Determine the Number of Amperes Required

On your computer or other electric devices (ie: monitor, central processing unit, printer) find the plate that provides the technical specifications as follows:

Input: 120V - 1.8A.

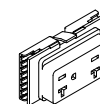

If you cannot locate this information on the machine, you will probably find it in the user manual.

Here are a few examples of how many Amps some equipment may consume. Please note that these are examples and the number of amperes may vary from one machine to another.

### Electrical System Capacity

Our electrical system is designed for circuits of 20 amps each. This includes electrical components such as computers, printers, laptops, monitors, server or other devices.

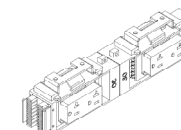

20A

A single Duplex has a maximum capacity of 20 A

Each power block can hold 2 Duplex

Each power block can hold 4 Duplex

If the duplexes are connected to the same circuit, the capacity is divided between them. For example, 3 duplexes connected to the same circuit have a total capacity of 20A.

# Introduction

## Appendix G: Calculation/Use of Electrical Components

### STEP 2: Calculating the Total Amperes

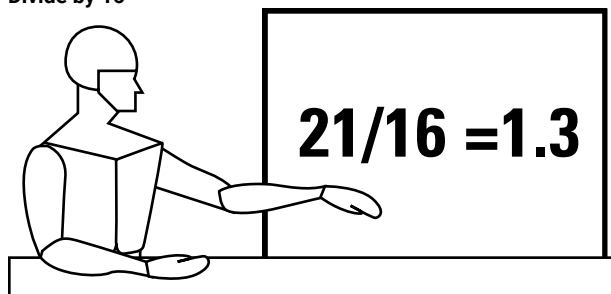

#### Add the Amperes

Add the number of amps for each machine. In our example, there are 4 CPUs at 2.5A per computer, 4 monitors at 0.5A and one printer at 9A.

The total number of amperes used in this example equals to 21A.

#### Divide by 16

Most machines and computers used in offices or schools are used continuously for many hours at a time. In this type of situation, national electrical codes usually limit circuits at 80% of their capacity of continuous use. Our electrical system is designed for circuits of 20 amps each. So 80% of 20A is 16 Amps. You must therefore divide the total number of amperes calculated by 16.

### STEP 3: Determining How Many Circuits You Need

In most cases, this number will contain decimals. Round up to the next whole number, and this will be the number of circuits required for your equipment to run safely. If the number obtained is higher than 4 (the maximum number of circuits for a system), you must reduce the total amperage or add another electrical system. Continuing with our example, the 1.3A is rounded up to 2A.

Here is one possible configuration. Using 5 power blocks joined together with junction cables, only 2 circuits are being used. The 4 workstations would be on the first circuit for a total of 16 amps. The printer would be on the second circuit.

## Appendix G: Calculation/Use of Electrical Components

### 8 Wire, 4 Circuit (3+1) Power Block

- Duplex are interchangeable permitting any required circuit combination;
- Blocks for single or double sided applications;
- Complies with National Electric Code;
- UL Listed/Recognized.

### Starter Cable with Hardwire

- 4 circuit starter cable with hardwire at one end;
- 4 circuits rated for 20 AMP each;
- Available in lengths from 12"to 180";
- Whip end to be connected to building power by an electrician.

### Starter Cable with Plug

- 1 circuit starter cable with 20A electrical plug;
- Circuit rated for 20 AMP;
- Available in lengths from 36"to 180".

### Junction Cable

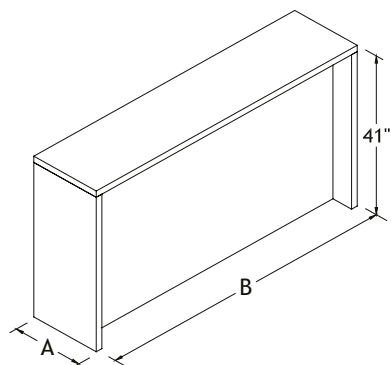

- 4 circuit cord;
- All circuits rated for 20 AMP;
- Available in lengths from 12"to 216".

## Manhattan - Reception Desk

MAN

**Manufacturing Standards**

**Reception Desk:**

- 1-5/8" desk and shelf tops;
- Rounded corner front panel made of high pressure laminate (HPL);
- 2.5" diameter, Satin Nickel finish brackets;
- Centred CAPF grommet;
- Top depth: 30".

**Acrylic Panel Option:**

- 1/8" frosted acrylic panels polished on the visible sides.

*Pedestals cannot be installed on reception stations that are 66" X 66" because of the curves close to the user space. We suggest mobile pedestals instead.*
