

Product Specifications

FLINT ARMCHAIR - SS 3010

CONSTRUCTION

- Wooden pieces are assembled using glue and screws, and corners are strengthened with hardwood blocks.
- Shell covered with ½" low-compression Celcor foam.
- Seat made of 15/16" hardwood with sides made of ¾" plywood and size 9 springs with 2 anti-twist rods attached with SE fasteners. Seat covered with 2" medium-compression Velva foam and ½" polyester.
- Back rest made of 15/16" hardwood and size 11 springs with 2 anti-twist rods attached with SE fasteners. Front covered with 2" medium-compression Velva foam and ½" polyester. Back covered with ½" medium-compression Celcor foam.
- Armrests made of horizontally seamless 1" recycled particle board. Top covered with 1" firm-compression Velva foam. Insides and outsides covered with ½" medium-compression Celcor foam.
- Wooden leg bases with 1½" w x ¾" d apron and legs 3" w x 3" d x 3" h with levelers. Legs and aprons attached using bolts and taps. Leg finish is made from a layer of stain, a layer of lacquer, a layer of sealant and a final layer of lacquer.
- Assembled out of 2 units to ease future upholstery and part replacement.
- Double top stitching maintains tissue nestles and highlights the design.

FINISHES

- Customers can choose an upholstery or vinyl from the supplier of their choice.
- Choice of 26 wood stains available for the legs.
