Table of Contents

Introduction

Elevation Plus is the ergonomic solution for flexible, comfortable work. It's fast, powerful and silent, with a synchronized multi-motor system and collision detection.

Update Summary

The Elevation Plus price list presents these principal modifications:

DATE	SECTION	MODIFICATIONS
March 1, 2024	All the Price List	• All prices have been increased by approximately 5%.

Previous updates:

| DATE	SECTION	MODIFICATIONS
November 22, 2023	Appendix A	• Removal of high gloss finish.
	Electrical accessories	• Addition of the wire management system BE-WMS-32 & BE-WMD-32. • Addition of items for 15a electric circuit: BE1-DMB, BE1-DC, BE1-PI, BE1-J & BE1-HC. • Removal of QIRE, OAS, INT, COV1 & F-714. • Replacement of QIBL by CQIBL & CQIWH.
July 4, 2023	Electrical accessories	• Chicago Code : Certain electrical components are now marked prohibited or restricted for orders in chicago. (USA pricelist only).
May 22, 2023	All the Price List	• Addition of white metal.
February 1, 2023	All the Price List	• All prices have been increased by approximately 5%. • New certification Indoor Advantage Gold (replace Greenguard). • Changed WF36-WF55 to WS36-WS54 (fabric sleeve).
July 1, 2022	All the Price List	• All prices have been increased by approximately 5%. • Replacement of the 1 circuit and 4 circuits electrical system.
	Appendix A	• Color availability chart update for the HPL.
	Appendix B	• Updated electrical specifications.

Our social responsability

At Logiflex, we have chosen to be a responsible North American manufacturer by implementing initiatives for sustainable development. As much as possible, we source local materials and partner with suppliers who prioritize clean manufacturing processes. We also consolidate goods during transport to reduce ou fuel consumption and we continually make changes that help reduce our waste production.

The company is ISO 9001 certified.

You can consult our eco-responsible approach as well as all our certifications in the Certifications section of our website. Find out how our products can help you obtain LEED credits and the Logiflex products that are Indoor Advantage Gold certified.

Conditions of Sale

Prices

The amounts listed in this document are suggested retail prices and may be changed without notice. Applicable taxes are not included. If you have an open and active account with Logiflex, merchandise will be invoiced at the prices prevailing at the time of shipment. A deposit may be requested if the opening of your account has not been completed or if your account has become inactive.

Terms of Payment

Net 30 days F.O.B. Sherbrooke, Quebec. The invoice will be assigned the shipping date and is payable 30 days from that date. Logiflex remains the owner of the merchandise until the invoice is paid in full.

Customized Products (Special Items)

Price requests for customized products or special items can be submitted via the "Private Space" section of our website, at www.logiflex.ca. Our quotations department will study your request and send you a quotation and a technical drawing for approval as soon as possible. Modifications to quotations or technical drawings can be requested the same way. The approved quotation(s) and technical drawing(s) can then be attached to your purchase order.

Orders

An official purchase order must be issued for all purchases. Your purchase order must contain the following information:

- Your company letterhead
- Your reference number
- The delivery address (with contact name, email and phone number)
- The complete product codes
- Furniture colour(s)
- Quantities
- Descriptions
- Retail prices and net prices
- Project registration number (if applicable), and your approved quotation and technical drawing (for special items).

Please note that a quotation cannot serve as a purchase order.

Returns

All returns must first be approved by Logiflex. If the return is accepted, a Logiflex customer service representative will send you an official return authorization form in order to facilitate procedures between you, the carrier, and the Logiflex merchandise reception clerk. Additional costs for shipping or other expenses may be applied following any merchandise returns.

Modifications and/or Cancellations

You have 48 hours from the time we acknowledge receipt of your order to make any requests for corrections or modifications. You may cancel your order during this same 48-hour period. If you would like to modify or cancel your order after this 48-hour verification period, please check with a Logiflex customer service representative. Orders cannot be changed or cancelled if production has already begun or if Logiflex has already received the raw materials.

Liability

Logiflex's liability ends once the carrier has delivered all items in good condition. A delivery receipt signed by the customer acknowledges that the shipment is complete and has been received in good condition.

Claims

Logiflex recommends inspecting the shipment before signing the carrier's delivery receipt. You must notify Logiflex of any incomplete shipments or damaged furniture within 30 days after delivery. Requests to replace damaged products can be made via the "Private Space" section of our website, at www.logiflex.ca. Our after-sales service department will examine your request and help you correct the situation.

Changes

Logiflex reserves the right to make changes to the materials, accessories, components, specifications and designs, and to discontinue collections and/or models, at any time and without prior notice.

Storage and/or Shipping Fees

According to the terms Logiflex set forth in the transport policy. The transport policy can be consulted online in the Private Space.

Items Delivered Disassembled

Some items are delivered disassembled, such as empty desks, empty returns, bridges, arched tables, D, P or Q tables, lateral tables, end tables, hook tables, corner tables and extended-corner tables.

Warranty

Logiflex guarantees to the original purchaser that Logiflex products are free from defects in design, materials and workmanship for the product's lifetime, with certain exceptions.

You may consult the full warranty on the website: **Logiflex Warranty**

Introduction

Manufacturing Standards

Product Dimensions

The dimensions of the adjustable tables are exact. For storage, the dimensions indicated in the price list are rounded to the nearest inch in order to simplify the display. In fact, the actual dimensions are slightly smaller than the displayed dimensions for display purposes.

Handles

Handles are included with all storage furniture. The standard is H052SN. Please refer to the Logiflex accessories selection at the end of this price list on p. 32.

Pedestals

All drawers are made of black Medium density fiberboard (MDF) with an average thickness of 7/16".

Drawer Fronts

A PVC strip 1.5 mm thick is systematically applied along all drawer front edges.

Levelers

All furniture items sit on 1" in diameter, white nylon levelers, allowing for up to 1-1/4" height adjustment.

Colors

Colors have to be specified for all furniture items ordered. Consult the "How to Oder" section on the product page for further details about the procedure. Consult the Logiflex Colors and Finishes Guide for the colors and finishes offered. Unless indicated otherwise in the order, the PVC edge will match the color and finish specified.

SERIES	PREVIEW	COMPONENT	MATERIAL	EDGES / MOLDING
EP		**1" surface**	Thermofused laminate (TFL) - 1" high-density particle board.	1.5 mm polyvinyl chloride (PVC)
		Front, back and modesty	Thermofused laminate (TFL) - 5/8" high-density particle board.	1.5 mm polyvinyl chloride (PVC) on showing surfaces and 0.5 mm polyvinyl chloride (PVC) on non-showing surfaces.

Ⓝ New

Appendix B : Elevation Plus adjustable tables
Elevation Plus height adjustable tables have a metal base with 3 sections and a satin nickel or black finish and a modern design that complements the styles of Logiflex's collections.

Features of the 3 section telescoping T legs

- ³ section rectangular telescoping column, 2"W x 3 1/8"D centered in leg;
- Base: 2¾"W x 1½"H, available in 2 depths: 23½" ou 27½";
- Metal with black or satin nickel finish;
- Short levelers allow for stabililty adjustment only. Long levelers allow for a 1¼" adjustment.

Support bars

Tables come with one or several black support bars.

Cable ties

Four ties are provided with the base to tie cables beneath the top.

Electric height adjustment

- Height adjustable from 24-1/2" to 50"H, including the 1" top;
- Operating speed: 1-1/4" per second;
- Usage cycle: 2 min of continuous movement for 18 min of rest;
- Sound level: 42 dB;
- Collision detector:
  - 12 kg and up when desk is being raised;
  - 9 kg and up when desk is being lowered;
- Load capacity (including the weight of the work surface) :
  - Table only (2 legs): 320 lb;
  - Table with return (3 legs): 400 lb;

⚠️ *Beyond this capacity, the table will not function properly*

- Weight of the work surfaces:
  - Rectangular Table: ranges from 25 lb (11 kg) to 47 lb (22 kg);
  - L shape Table: ranges from 50 lb (23 kg) to 73 lb (33 kg).

Electrical specifications

- Power cord with ordinary wall plug:
  - 2 legs: 70" without ground;
  - 3 legs: 118" with ground;
- Cord lenght from controller 60";
- Low standby power consumption;
- UL-certified (CAN-US).

⚠️ *3.25 A/120 V, 60 Hz. Maximum 4.8 A.*
We recommend a maximum of 3 tables on a 15 A circuit.
- 3 tables on the same circuit 15A.
- 4 tables on the same circuit 20A.

Weight

- Total weight of the 2 leg basic assembly: 56 lb.
- Total weight of the 3 leg basic assembly: 83 lb.

Standards and certifications

- Complies with ANSI / BIFMA X5.5-2014
- UL-certified (CAN-US)

Programmable keyboard

- Digital height display;
- 3 programmable settings;
- Up/down adjustment control;
- The keyboard can be installed on the drawer front, under the top, on left or right.

| Digital display | Memory key | Memory buttons | Up/down arrows |
User manual summary

Memorize heights

1. Use the ⋀ or ⋁ arrows to reach the desired height.

2. Press S. The height will blink.

3. Then press a number (1, 2 or 3) to save the height to the chosen button.

4. To use the memorized height, press the corresponding nu

Reset the table

1. Press and hold ⋁ until the table is at the lowest height.

2. Release when RST appears and the lowest height is displayed.

The full manual is available on Logiflex's website.

Appendix B : Elevation Plus adjustable tables (cont.)

Clearance with surrounding walls furniture

The dimensions on the price list for Elevation Plus tables are exact. The tops are 1" less in depth and 2" less in width than the other collections.

The 1" clearance created when the table is surrounded by partitions, divider screens or a panel system prevents fingers from getting caught in the mechanism when it is activated.
⚠ **IMPORTANT**

For safety reasons, it is important to ensure a 1" clearance on all sides of the Elevation Plus table.

Vertical clearance with furniture above

A space of at least 3" between the bottom of the hutch and the top of the adjustable table is recommended when the table is at its maximum height.
Interior vertical clearance

The interior clearance refers to the free space beneath the structural beams of the adjustable table when it is set to its lowest height.

To ensure that the adjustable table is compatible with a mobile pedestal, a credenza or any other storage unit, check the height of the storage unit.

The following products may be placed under the Elevation Plus table:
- Level: Mobile pedestal MOBC, low pedestal (without cushion);
- Volt: Mobile pedestal MOBC, low pedestal.
Position of legs

Below are the leg clearances depending on the top clearance:
- 23"D top = 23½" leg
- 29"D = 27½" leg

For 23"D tops, the leg protudes ¼" from each side ot the top.
⚠ **IMPORTANT**

Undermount divider screens are incompatible with Elevation Plus legs, as they interfere with the legs and encroach on the 1" clearance required around the table.

Logiflex recommends using undermout screen dividers such as the SAS, SMS and SBS models.

Appendix C: Grommet and Connection Unit

Several connnectivity options can be added to the surfaces of Elevation Plus tables.
Note: 2 different units cannot be in the same position. For example, there cannot be a connection unit and a grommet on the left.

Appendix D : Elevation Plus Power Beam

Power beam are visually pleasing, portable solution to organize power and network cables when a cluster of height adjustables tables is divided into several workstations. Power Beams are suited to either single or double (face-to-face) configurations.

⚠️ *Not compatible with desk add-ons for executive offices, such as laminate complements, shells and modesty panels.*

Removable panel

1" clearance for cable management

Fabric sleeve for wires (sold separately)

Option: 2 1/2" round grommet

BE-Jxx or BE1-Jxx junction cable (sold separately)

2 1/2" high inside space

BE-KDHB or BE1-DM power block (sold separately)

BE-HW, BE-PI72 or BE1-PIxx power cord (sold separately)

2 1/2" round grommet on left and rght at the bottom of the boxed leg
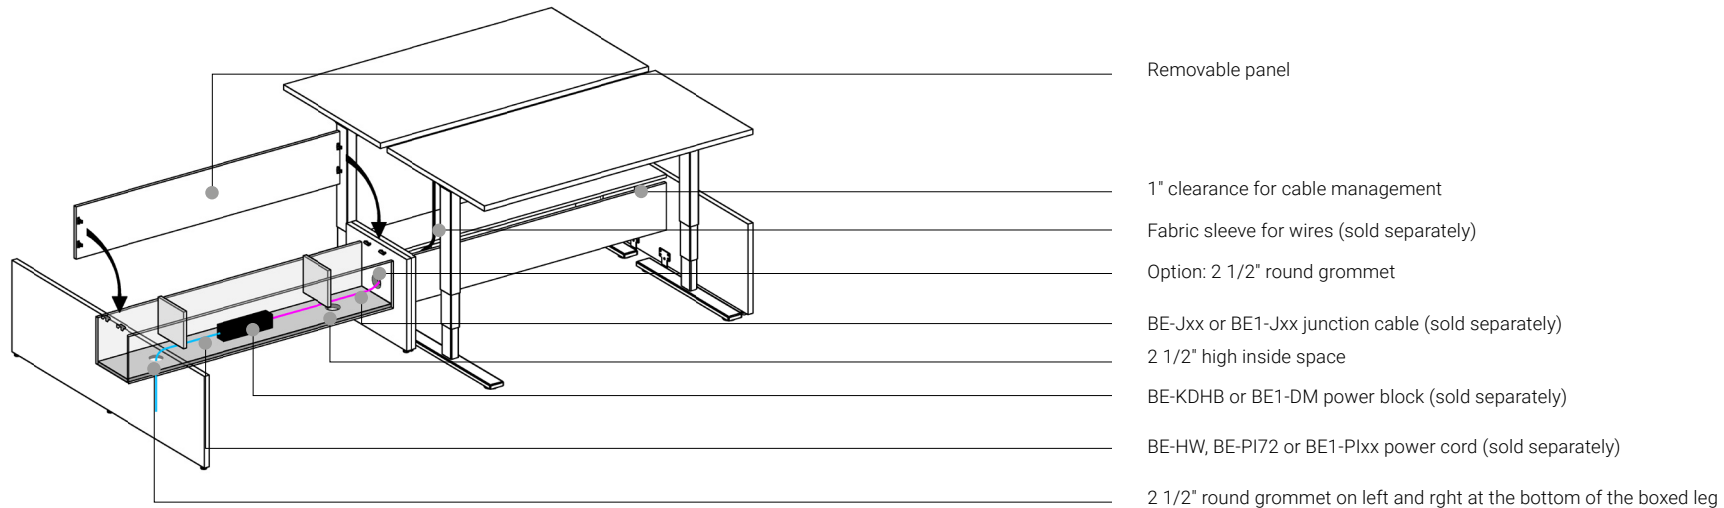

Recommendations for specifying Power Beams

Guidelines for using Power Beams:

- For use along the lenght of rectangular or L shaped Elevation Plus tables. Do not use in the same direction as the return.
- Designed to leave a 1" clearance around the sides of the table to prevent pinching.
- Not compatible with desk add-ons for executive offices, such as laminate complements, shells and modesty panels.
- Not compatible with Level screens (modesty panels).
- A single power beam cannot be connected to a double power beam. The grommets will not align.
- ⚠️ Warning: We cannot install the BE-DBSM 2-sided block in the power beams. This block is too large and sockets will not be accessible.

Appendix E : Laminate complements - Executive office

Components can be added to hide one or more legs of an Elevation Plus table.
- All of the components are specified separately to give you greater flexibility.
- These components are 18" high in order to leave a clearance beneath the top of the adjustable tables structure when they are set to the lowest position.
- Warning : *e, les coquilles et les modesties ne sont pas compatible avec la poutre d'alimentation.*

Individual shroud
Individual shroud

Individual shroud with drawer

Information about individual shroud:
- 2 models available:
  - Individual shroud (8"W), right or left;
  - Individual shroud with drawer (12¼"W), right or left.
- 2 depths:
  - 25", for 23" tops;
  - 30", for 29" tops.
- The nestle is finished with a plastic end plate matching the colour of the metal leg.

Shells
Information about shells:
- The shells are designed to be compatible with rectangular tables with a width of 52"W or more.
- 2 models available:
  - 2 individual shrouds (8"W) and foxed modesty panel;
  - 2 individual shrouds with drawer (12¼"W) and fixed modesty.
- 2 depths:
  - 25", for 23" tops;
  - 30", for 29" tops.
- The nestle is finished with a plastic end plate matching the colour of the metal leg;
- *L shaped tables: The shells can only be used on the main work surfaces.*

Undermount modesty panel
Information about laminate modesty panels:
- Modesty panels are designed to be compatible with tables with shells or with 2 individual shrouds;
- 2 models available:
  - Modesty panel for 2 individual shrouds (8"W);
  - Modesty panel for 2 individual shrouds with drawer (12¼"W).

## Appendix E : Laminate complements for executive office (cont.)

Positioning

The individul shrouds are designed to protrude 1" from the sides and front of the table to ensure a clearance around the top when the table is placed against a wall or another piece of furniture.

Shroud detail

Elevation Plus add-on modules are designed with a space inside to hide the metal leg. A plastic trim cover of 2 1/2" x 4 3/8" matches the satin nickel or black metal finish.
Appendix F: Calculation/Use of Electrical Components

**An Introduction to Calculation
and Use of Electrical Components**

Most people are uncomfortable with anything related to electricity. This step-by-step guide is intended for people who are not familiar with electrical installations but who have to specify what system they need when ordering furniture. In this guide, you will learn how to choose and specify the electrical components required for your projects. The list that follows illustrates and identifies each product and describes its applications.

The electrical components are all recognized by the Underwriters Laboratory (UL) as office furniture accessories and are manufactured according to Canadian Standards Association (CSA) and UL electrical standards.

Note: All electrical connections must be performed by a certified electrician.

By following these 3 simple steps, you can easily determine the number of circuits required to ensure safe use of your electrical system.

1. Determing the Number of Amperes Required
2. Calculating the Total Amperes
3. Determing How Many Circuits You Need

STEP 1:
Determing the Number of Amperes Required

What is Amperage
An Ampere (Amp or A) is a unit for measuring the rate at which electric current flows. All electrical equipment has an amperage rate. By following these few simple steps, you can easily determine the number of circuits required to ensure safe use of your electrical equipment.

Determine the Number of Amperes Required
On your computer or other electric devices (ie: monitor, central processing unit, printer) find the plate that provides the technical specifications as follows:

Input: 120V - 1.8A.

If you cannot locate this information on the machine, you will probably find it in the user manual.

Here are a few examples of how many Amps some equipment may consume. Please note that these are examples and the number of amperes may vary from one machine to another.

| CPU 2.5A | Monitor .5A | Laptop 1A | Printer 9A | Server 12A |
Electrical System Capacity

Our electrical system is designed for circuits of 20 amps each. This includes electrical components such as computers, printers, laptops, monitors, server or other devices.

20A

A single Duplex has a maximum capacity of 20 A

Each power block can hold 2 Duplex

Each power block can hold 4 Duplex

 = 20A

If the duplexes are connected to the same circuit, the capacity is divided between them. For example, 3 duplexes connected to the same circuit have a total capacity of 20A.
Appendix F: Calculation/Use of Electrical Components (cont.)

STEP 2:
**Calculating the Total Amperes**

Add the Amperes

Add the number of amps for each machine. In our example, there are 4 CPUs at 2.5A per computer, 4 monitors at 0.5A and one printer at 9A.

2.5A **+** .5A **+** 2.5A **+** .5A **+** 2.5A **+** .5A **+** 2.5A **+** .5A **+** 9A **= 21A**

The total number of amperes used in this example equals to 21A.

Divide by 16

$$21/16 = 1.3$$

Most machines and computers used in offices or schools are used continuously for many hours at a time. In this type of situation, national electrical codes usually limit circuits at 80% of their capacity of continuous use. Our electrical system is designed for circuits of 20 amps each. So 80% of 20A is 16 Amps You must therefore divide the total number of amperes calculated by 16.

STEP 3:
Determing How Many Circuits You Need

In most cases, this number will contain decimals. Round up to the next whole number, and this will be the number of circuits required for your equipment to run safely. If the number obtained is higher than 4 (the maximum number of circuits for a system), you must reduce the total amperage or add another electrical system. Continuing with our example, the 1.3A is rounded up to 2A.

$$1.3 \approx 2$$
Here is one possible configuration. Using 5 power blocks joined together with junction cables, only 2 circuits are being used. The 4 workstations would be on the first circuit for a total of 16 amps. The printer would be on the second circuit.

0,5A   0,5A   0,5A   0,5A   9A

2,5A   2,5A   2,5A   2,5A

I   I   I   I   I   I   I   I   II   II
Appendix F: Calculation/Use of Electrical Components (cont.)

8 Wire, 4 Circuit (3+1) Power Block

- Duplex are interchangable permitting any required circuit combination;
- Blocks for single or double sided applications;
- Complies with National Electric Code;
- UL Listed/Recognized.

|	Circuit I	Circuit II	Circuit III	Circuit IV	
N2					Gray
N1					White
ISO G					Yellow & green
G					Bare
H4					Pink
H3					Blue
H2					Red
H1					Black
Starter Cable with Hardwire

- 4 circuit starter cable with hardwire at one end;
- 4 circuits rated for 20 AMP each;
- Available in lengths from 12"to 180";
- Whip end to be connected to building power by an electrican.

Starter Cable with Plug

- 1 circuit starter cable with 20A electrical plug;
- Circuit rated for 20 AMP;
- Available in lengths from 36"to 180".

Junction Cable
- 4 circuit cord;
- All circuits rated for 20 AMP;
- Available in lengths from 12"to 216".

Appendix G: Divider Screens
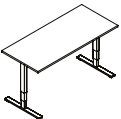

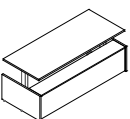

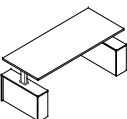

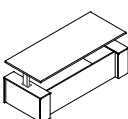

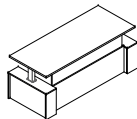

Level dividers may be compatible with certain products in the Elevation Plus collection.
To order divider screens, refer to the *Screens* section of the Level price List.

Divider screen to be used across the width

How to specify:
- Order the same size as the table. For example, for a 29" x 70" table, you need to order a 70"wide divider screen.
- Use the price of the higher dimension in the price list.

|					
	✓	✓	✓	✓	X **
	✓	X	X *	X	X
	✓	X	X *	X	X

It is possible to use this type of divider screen by choosing a width that allows it to be inserted between the shrouds.

Divider screen to be used on the sides

How to specify:
- Order the same size as the table side dimension. For example, for a 29" x 70" table, you need to order a 29" wide divider screen.
- Use the price of the higher dimension in the price list.

	✓	✓	✓	✓	✓
	X	X	X	X	X

It is not possible to use this type of divider screen, since the clips conflict with the metal legs of the adjustable tables.

Height Adjustable Tables

Rectangular Tables

T

Manufacturing Standards

Elevation Plus table with electric height adjustment:

- 1" laminate rectangulaire top;
- Two telescopic "T" legs (3 sections), on levelers. Metal finishes: Black or satin nickel ;
- Adjustment range: 24-1/2" to 50" H;
- 2-motor system with collision detector;
- Maximum weight load: 320 lbs;
- Programmable controller with up / down adjustment control, 3 memory settings and digital height display. The controller can be installed on the left or on the right;
- Support bar: for 64" and more;
- Assembly required.

*Maximum height of under the desk storage: 19-1/2" .*
Grommets are recess back 5-1/2".

Note: *The dimensions of the surfaces are reduced by 1" in order to leave a clearance of 1" on the sides and in front.*

Screen or modesty: *To add a divider screen or modesty panel, see p. 19*
Technical Information: *For full specifications see p. 10*

TRR
Return on Right

23" A B C

👍 Manufacturing Standards 🔧

Elevation Plus L-shaped table with electric height adjustment:

- 1" laminate rectangular top with return;
- Three telescopic "T" legs (3 sections), on levelers. Metal finishes: Black or satin nickel ;
- Adjustment range: 24-1/2" to 50" H;
- 3-motor system with collision detector;
- Programmable controller with up / down adjustment control, 3 memory settings and digital height display. The controller can be installed on the left or on the right;
- Maximum weight load: 400 lbs;
- Support bar : for 64" and more;
- Assembly required.

Maximum height of under the desk storage: 19-1/2".

Grommets are recess back 5-1/2".

Screen or modesty: *To add a divider screen or modesty panel, see p. 19*

**Technical Information:** *For full specifications see p. 10*
