

## POP UP VACCINATION CLINICS A COMPANY MOBILIZED FOR HEALTH CARE

In this time of crisis, Logiflex offers safe workstation solutions for health care staff.

We've designed new workstations with social distancing in mind, to allow you to safely accommodate patients in mass vaccination centers, waiting rooms and triage and consulting areas. These layouts use products that meet the health and safety requirements of the health care sector.

For both pop up vaccination clinics and temporary vaccination centers in health care institutions, Logiflex ensures that nursing staff have the work setting they need for the important work of vaccinating the public safely.
