Introduction

Our social responsibility

At Logiflex, we have chosen to be a responsible North American manufacturer by implementing initiatives for sustainable development. As much as possible, we source local materials and partner with suppliers who prioritize clean manufacturing processes. We also consolidate goods during transport to reduce our fuel consumption and we continually make changes that help reduce our waste production.

The company is ISO 9001 certified.

You can consult our eco-responsible approach as well as all our certifications in the Certifications section of our website. Find out how our products can help you obtain LEED credits and the Logiflex products that are Indoor Advantage Gold certified.

Conditions of Sale

Prices

The amounts listed in this document are suggested retail prices and may be changed without notice. Applicable taxes are not included. If you have an open and active account with Logiflex, merchandise will be invoiced at the prices prevailing at the time of shipment. A deposit may be requested if the opening of your account has not been completed or if your account has become inactive.

Terms of Payment

Net 30 days F.O.B. Sherbrooke, Quebec. The invoice will be assigned the shipping date and is payable 30 days from that date. Logiflex remains the owner of the merchandise until the invoice is paid in full.

Customized Products (Special Items)

Price requests for customized products or special items can be submitted via the "Member Zone" section of our website, at www.logiflex.ca. Our quotations department will study your request and send you a quotation and a technical drawing for approval as soon as possible. Modifications to quotations or technical drawings can be requested the same way. The approved quotation(s) and technical drawing(s) can then be attached to your purchase order.

Orders

An official purchase order must be issued for all purchases. Your purchase order must contain the following information:

- Your company letterhead
- Your reference number
- The delivery address (with contact name, email and phone number)
- The complete product codes
- Furniture colour(s)
- Quantities
- Descriptions
- Retail prices and net prices
- Project registration number (if applicable), and your approved quotation and technical drawing (for special items).

Please note that a quotation cannot serve as a purchase order.

Returns

All returns must first be approved by Logiflex. If the return is accepted, a Logiflex customer service representative will send you an official return authorization form in order to facilitate procedures between you, the carrier, and the Logiflex merchandise reception clerk. Additional costs for shipping or other expenses may be applied following any merchandise returns.

Modifications and/or Cancellations

You have 48 hours from the time we acknowledge receipt of your order to make any requests for corrections or modifications. You may cancel your order during this same 48-hour period. If you would like to modify or cancel your order after this 48-hour verification period, please check with a Logiflex customer service representative. Orders cannot be changed or cancelled if production has already begun or if Logiflex has already received the raw materials.

Liability

Logiflex's liability ends once the carrier has delivered all items in good condition. A delivery receipt signed by the customer acknowledges that the shipment is complete and has been received in good condition.

Claims

Logiflex recommends inspecting the shipment before signing the carrier's delivery receipt. You must notify Logiflex of any incomplete shipments or damaged furniture within 30 days after delivery. Requests to replace damaged products can be made via the "Member Zone" section of our website, at www.logiflex.ca. Our after-sales service department will examine your request and help you correct the situation.

Changes

Logiflex reserves the right to make changes to the materials, accessories, components, specifications and designs, and to discontinue collections and/or models, at any time and without prior notice.

Storage and/or Shipping Fees

According to the terms Logiflex set forth in the transport policy The transport policy can be consulted online in the Private Space.

Items Delivered Disassembled

Some items are delivered disassembled, such as empty desks, empty returns, bridges, arched tables, D, P or Q tables, lateral tables, end tables, hook tables, corner tables and extended-corner tables.

Warranty

Logiflex guarantees to the original purchaser that Logiflex products are free from defects in design, materials and workmanship for the product's lifetime, with certain exceptions.

You may consult the full warranty on the website: Logiflex Warranty

Introduction

Appendix A: Colors and Finishes

12 Wood Stains

Logiflex offers varnish and stain selection among the following 12 colors on all wood applications.

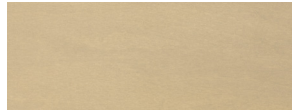

Knots and color variation can occur between different wood components of the same piece of furniture, or between different pieces of furniture. This variation is due to the natural characteristics of the wood, and is more contrasting for pale wood colors like Golden Wheat.

Introduction

Appendix B: COM Fabric

Upholstery Specification

Logiflex offers two options for upholstery specification:

Option 1 :	Customers may specify an upholstery from any supplier. Logiflex will then confirm upholstery grade and seat cost.
Option 2 :	Customers may select and purchase upholstery of their choice and ship upholstery to Logiflex (COM)

Option 1 : Specified Upholstery

Customers may consult the websites of our principal suppliers to visualize their complete product range. It is then possible to consult the graded-in list available on Logiflex.ca to be informed of the appropriate Logiflex grade.

Website of the upholstery supplier gives essential information to the maintenance, availability, quality and performance of the selected upholstery. In all cases, the upholstery supplier's warranty will apply.

Information to provide with the order:

Customer name
Purchase order number
Upholstery supplier name
Pattern name/number
Color name/number
Number of yards to order

Principal suppliers:

Momentum Textiles	themomgroup.com
Ennis Fabrics	ennisfabrics.com
Maharam	maharam.com
DesignTex	designtex
Mayer Fabrics	mayerfabrics.com

See our Graded-In Program at:
logiflex.ca/medias/documents/logiflex-graded-in.pdf

Option 2 : Customer's Own Material (COM)

Logiflex offers the option of providing your own upholstery. The price will be based on the cushion grade 2.

Orders with a COM fabric must be written clearly and indicate the color, pattern, width of the fabric and the manufacturer or distributor. The customer is responsible for providing a 12" x 12" sample to Logiflex for approval of the upholstery and the COM Fabric Sample - Approval Form. Furthermore, Logiflex reserves the right to refuse any upholstery that does not meet Logiflex selection criteria.

COM fabrics must be delivered to the Logiflex factory with freight and duties paid. For COM orders, the order's delivery date is set once Logiflex has received all fabric rolls required for production, following sample approval. All charges to COM acquisition on the customer's behalf will be passed onto the customer.

Logiflex does not assume responsibility for upholstery availability, quality, performance or appearance. In addition, the Logiflex warranty excludes customer's own materials.

COM upholstery delivery:

The following information must be included with the COM upholstery delivery and be communicated to the account manager along with the purchase order:

Customer name
Purchase order number
Upholstery supplier name
Pattern name/number
Color name/number
Number of yards delivered

[COM Fabric Sample - Approval Form](#)

Shipping address:

Logiflex
Attn: Receiver
1235 St-Roch North Road
Sherbrooke Quebec
Canada J1N 0H2

Note: A late reception of fabric may cause delivery delays.

Introduction

Appendix B: COM Fabric (*continued*)

Fabric Quantities

The quantities of fabric yardage to order for each piece of furniture is indicated in the "Manufacturing Standard" section on the product page indicating the amount of yards required.

Where this option is available, you will see the following table in the "Manufacturing Standard" section on the product page indicating the amount of yards required:

Example:

COM Fabric:

Fabric combination possible. Number of yards required:

Code	Total	Bench	Back	Panel
BDFP	7	2.5	2	2.5
BMFP	7.5	2.5	2.5	2.5
BHFP	8.5	2.5	3.5	2.5

Note: It is recommend that you include a layout with all orders.

Graded-In List

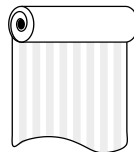

Seat cost depends of selected upholstery. Grade is not established according to upholstery quality or performance, but to its purchase cost. In order to help customers researches, a graded-in list presenting the entire collections od Logiflex's principal suppliers has been prepared. It is possible to consult Logiflex graded-in list by visiting logiflex.ca

Note: The graded-in list is based on information at time of the publication of this document. As upholstery suppliers can discontinue products or increase their prices at their discretion, this list communicated for information purposes only and can not be considered as a sale commitment by Logiflex.

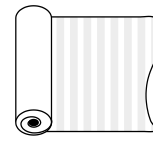

Application of Upholstery

Application of upholstery will follow the directional orientation of its pattern. Explicit instructions must be given to the customer's account manager if a specific direction is desired. Logiflex will not be responsible of problems related to upholstery direction or positioning unless formal instructions has been given along with the purchase order.

Instruction references:

Up the Roll

Railroaded
(across the roll)

Leather

All leathers used are "cowhide".

Please note that the warranty does not apply on leather's natural imperfections, such as: scars, marks, and difference in stain within a leather skin or different skins. This specification also applies for standard leather GR5 and Italian leather GR7 and up.

Polyurethane foam

The polyurethane foam used in the manufacturing of our armchairs is antibacterial.

Different densities exist and will vary from one armchair model to the other. Medium-density foam is used for back and seating parts, while the firmer-density foam is used for armrest parts.

Flammability standards

The foam used meets or exceeds the flammability standards of the California Technical Bulletin 117 norms.

Appendix C: Customized Products

The models presented here are suggestions: they can all be modified according to your needs.

In addition to designing and manufacturing entirely customized furniture, Logiflex offers the option of simply modifying the dimensions of the models presented. A sketch of the desired unit and all pertinent details must be submitted to our quotations department, which will study your request and send you a quotation and a drawing for approval as soon as possible.

Custom Manufacturing

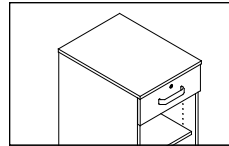

The following custom manufacturing suggestions are available through quotation:

High-Pressure Laminate Tops

Unit tops can be finished with high-pressure laminate, a material recognized for its resilient properties. This option must be specified when ordering. The laminate sheet is glued to the surface and then heat-sealed with a 1.5 mm PVC edge.

Unless otherwise specified in the order, the laminate finish will be coordinated to match the unit's thermally fused laminate color.

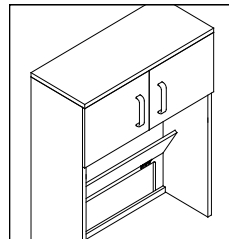

Locks

Satin nickel locks can be installed on all Logilife units. This option must be specified in the order. They are randomly keyed, and two keys are provided per lock. To specify keyed alike locks, a list of the units that have identical keys must be provided with the order.

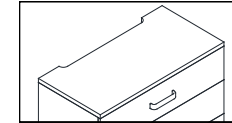

Some lock numbers may be repeated in orders of 50 units or more.

Hinged Back on Hutches

To provide easy access to wiring, the backs of hutches can be cut out and concealed by a hinged panel. This option must be specified when ordering.

Cutout Dresser Top

Dressers intended to accommodate televisions can have a cutout top to provide easy access to wiring. This option must be specified when ordering.

180° or 270° Hinges

Wardrobe doors can be installed on hinges that open 180° or up to 270°, to be specified when ordering.

Master Key

A master key can be provided for units that have locks. This option must be specified when ordering.

Classic Series

Patient Room Furniture

Manufacturing Standards: Classic Series

Product Dimensions

For display purposes, the furniture dimensions represented in the price tables on each product page are rounded to the nearest whole number.

Customized Products

The models presented here are suggestions: they can all be modified according to your needs. In addition to designing and manufacturing entirely customized furniture, Logiflex offers the option of simply modifying the dimensions of the models presented.

Please see page [Appendix B](#) for more information and suggestions about custom manufacturing.

Construction

Frames are made of 3/4" thermally fused laminate. Non-exposed edges are covered with a 0.5 mm PVC strip, while exposed edges are covered with a 1.5 mm strip. This type of thicker and heat-sealed edge increases the unit's durability while preventing infiltration of bacteria and moisture.

All bedside cabinets, dressers and wardrobe cabinets have air vents to ensure air circulation.

Tops

Tops of the Classic series are featureless, in 3/4" thermally fused laminate with 1.5 mm heat-sealed PVC edges.

Drawers and Cabinets

Robust and easy to clean, the drawers are made of black 7/16" particleboard back, bottom and sides. The full extension slides are black and have a capacity of 100lbs.

Drawer and cabinet fronts in the Classic Series are made of 3/4" thermally fused laminate with 1.5 mm heat-sealed PVC edges.

Base

The sides of furniture items in the Classic Series go right to the ground and are equipped with height adjustable, non-marking glides. The front features a full kick plate in 3/4" thermally fused laminate with 1.5 mm heat-sealed PVC edges.

Dressers

Unless otherwise specified when ordering, the dresser back is recessed 2 1/4" so that the unit can be placed against a wall with electrical outlets.

Wardrobes and Cabinets

Adjustable shelves in wardrobes and cabinets are fixed to shelf supports in order to prevent tipping. For greater safety, wardrobes are equipped with a safety garment rail that will support a maximum weight of 75 pounds.

Handles

The standard handle for the Classic Series is the H161, satin nickel finish. However, any Logilife handle may be chosen instead of this standard; simply specify the choice when placing the order.

Handles have been selected for their ergonomic characteristics.

Finishes

5 wood grain finishes and 1 solid color are offered in the Classic Series:

- **BC** - Brown Cherry
- **CC** - Classic chocolate
- **DR** - Driftwood
- **EC** - Classic Maple
- **TO** - Tobacco
- **W** - Polar White

Unless otherwise specified when ordering, all finishes are coordinated to ensure matching thermally fused laminates and PVC edges.

Fronts and doors can be of different colors to make it easier for visually impaired individuals to identify the units.

Edges can be of different colors to make it easier for visually impaired individuals to identify the units.

Wood Grain

Wood grain is always vertical on cabinet doors, and horizontal on drawer fronts and the kick plate.

Safety

For greater safety, Logiflex recommends using anchoring systems like its anti-tipping kits to prevent units from tipping forward. Wall anchoring is recommended for wardrobes and is required for dressers and hutches.

Options

Plastic Drawer Liner: The white plastic drawer liner is designed specifically for easy cleaning of the top drawer of bedside cabinets: it is removable, stands up to cleaning products, and has rounded corners. Its moulded handle makes it easy to take out and put back into the drawer.

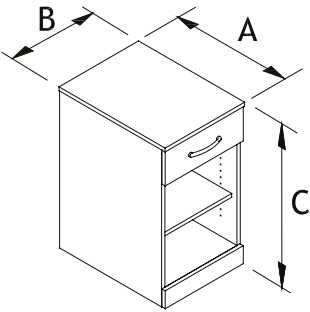

Anti-Tipping Kit: The anti-tipping kit, made from steel and galvanized steel cable, prevents units from tipping forward. For increased safety, it is recommended that dressers and wardrobes be anchored to the wall. Two kits are required for hutches.

Additional Adjustable Shelves: An additional adjustable shelf, with shelf supports included, may be ordered for hutches and wardrobes.

Modern Series

Manufacturing Standards: Modern Series

Customized Products

The models presented here are suggestions: they can all be modified according to your needs. In addition to designing and manufacturing entirely customized furniture, Logiflex offers the option of simply modifying the dimensions of the models presented.

Please see page [Appendix B](#) for more information and suggestions about custom manufacturing.

Construction

Frames are made of 3/4" thermally fused laminate. Non-exposed edges are covered with a 0.5 mm PVC strip, while exposed edges are covered with a 1.5 mm strip. This type of thicker and heat-sealed edge increases the unit's durability while preventing infiltration of bacteria and moisture.

All bedside cabinets, dressers and wardrobe cabinets have air vents to ensure air circulation.

Tops

Tops of the Modern Series are featureless, in 3/4" thermally fused laminate with 1.5 mm heat-sealed PVC edges.

Drawers and Cabinets

Robust and easy to clean, the drawers are made of black 7/16" particleboard back, bottom and sides. The full extension slides are black and have a capacity of 100lbs.

Drawer and cabinet fronts in the Classic Series are made of 3/4" thermally fused laminate with 1.5 mm heat-sealed PVC edges.

Legs

For an easier room maintenance, Modern Series is offered with 6" H tubular metal legs, satin nickel finish, with height adjustable, non-marking glides.

6" H oval metal legs, with satin nickel finish, are available as an option. This must be specified in the order.

Dressers

Unless otherwise specified when ordering, the dresser back is recessed 2 1/4" so that the unit can be placed against a wall with electrical outlets.

Wardrobes and Cabinets

Adjustable shelves in wardrobes and cabinets are fixed to shelf supports in order to prevent tipping. For greater safety, wardrobes are equipped with a safety garment rail that will support a maximum weight of 75 pounds.

Handles

The standard handle for the Modern Series is the H162, satin nickel finish. However, any Logilife handle may be chosen instead of this standard; simply specify the choice when placing the order.

Handles have been selected for their ergonomic characteristics.

Finishes

5 wood grain finishes and 1 solid color are offered in the Modern Series:

- **BC** - Brown Cherry
- **CC** - Classic Chocolate
- **DR** - Driftwood
- **EC** - Classic Maple
- **TO** - Tobacco
- **W** - Polar White

Unless otherwise specified when ordering, all finishes are coordinated to ensure matching thermally fused laminates and PVC edges.

Fronts and doors can be of different colors to make it easier for visually impaired individuals to identify the units.

Edges can be of different colors to make it easier for visually impaired individuals to identify the units.

Wood Grain

Wood grain is always vertical on cabinet doors, and horizontal on drawer fronts and the kick plate.

Safety

For greater safety, Logiflex recommends using anchoring systems like its anti-tipping kits to prevent units from tipping forward. Wall anchoring is recommended for wardrobes and is required for dressers and hutches.

Options

Plastic Drawer Liner: The white plastic drawer liner is designed specifically for easy cleaning of the top drawer of bedside cabinets: it is removable, stands up to cleaning products, and has rounded corners. Its moulded handle makes it easy to take out and put back into the drawer.

Anti-Tipping Kit: The anti-tipping kit, made from steel and galvanized steel cable, prevents units from tipping forward. For increased safety, it is recommended that dressers and wardrobes be anchored to the wall. Two kits are required for hutches.

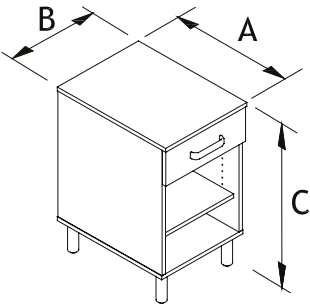

Additional Adjustable Shelves: An additional adjustable shelf, with shelf supports included, may be ordered for hutches and wardrobes.

Locking Casters: 4 locking, swivel polyurethane casters can be installed on bedside cabinets. Logiflex will then remove the kick plate and adjust the unit to the desired height.

Tables Series

Flex, All-Purpose & Occasional Tables

Tables

Manufacturing Standards: Tables Series

Tops

All Logilife Tables are made of 1" thermally fused laminate or high pressure laminate tops with 2mm heat-sealed PVC edges.

Flex Tables

Flex tables offer independent height adjustment of each surface. Surfaces are adjustable from 27" to 37". Bases are designed to allow maximum clearance to facilitate medical assistant duties. Tables are equipped with height adjustable glides.

Tables with Height Adjustable Mechanism

Tables provided with a pneumatic mechanism base can be adjust in height from 28" to 38".

Limited Lifetime Warranty

All Logilife furniture manufactured after August 1, 2012 is provided with a limited lifetime warranty.

Finishes

5 wood grain finishes and 1 solid color are offered in the Tables Series:

- **BC** - Brown Cherry
- **CC** - Classic Chocolate
- **DR** - Driftwood
- **EC** - Classic Maple
- **TO** - Tobacco
- **W** - Polar White

Customized Products

The models presented here are suggestions: they can all be modified according to your needs.

Please see page [Appendix B](#) for more information and suggestions about custom manufacturing.

Options

Flip-top Mechanism | Tables with BPX Bases:

Tables with pneumatic mechanism can be ordered with a flip-top mechanism to reduce the storage footprint.

Lazy Susan | Flex Tables:

Flex tables can receive a central swivel circular tray.

Curved Fronts | Flex Tables:

Flex table surfaces may have a concave shape for the user comfort.

Sliding Action | Flex Tables:

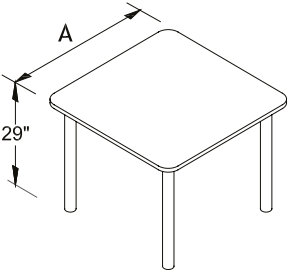

Each top of Flex tables can be provided with independent mechanism for adjustability in depth in order to move tops forward. 1 mechanism per top is needed.

Seating

Hosta
Wooden Seats

Seating

Manufacturing Standards: Hosta Series

Construction | Armchairs*

The structural seat frame is made of welded steel for an increased strength and durability. Its assembly allows 3 levels of adjustments in height and 2 in deepness while the metal to metal connections allows individual components to be replaced without having to replace the entire chair.

*Feature not available for the general purpose chair.

Easy Cleaning

All Logilife chairs feature a vinyl moisture barrier with aerators that covers the underside of the seat. All models are also designed with a clearance space between the back and the cushion, facilitating maintenance and cleaning.

Wall Saver

Logilife chairs are specifically designed to prevent premature wear and damages by avoiding contacts between the back, the armrests and the surrounding walls.

Safe and Easy Ingress and Egress

The wooden frame is assembled with mortise and tenon construction for optimal strength. Logilife chairs are designed with molded backs and spring seat construction for optimal comfort and ergonomic support. Chair backs and seats utilize multi-density foam and legs are equipped with non-marking glides.

Frame | Armchairs

The wooden frame is assembled with mortise and tenon construction for optimal strength. Logilife chairs are designed with molded backs and spring seat construction for optimal comfort and ergonomic support. Chair backs and seats utilize multi-density foam and legs are equipped with non-marking glides.

Weight Capacity | Bariatric Armchairs

Bariatric armchairs have a weight capacity of 750lbs.

California Technical Bulletin 117

The Celcor foam used meets or exceeds the California Technical Bulletin 117 norms.

Limited Lifetime Warranty

All Logilife furniture manufactured after August 1, 2012 is provided with a limited lifetime warranty.

Laminate

5 laminate colors are offered in the Logilife Series:

- **BC** - Brown Cherry
- **CC** - Classic Chocolate
- **DR** - Driftwood
- **EC** - Classic Maple
- **TO** - Tobacco
- **W** - Polar White

Upholstery Specification

Logiflex offers its customers several methods of specifying the fabrics from different suppliers. Terms and conditions for approval and order are listed on [p. 10](#). It is also possible to combine more than one fabric for the same seat, at no additional cost. The price of the seat will be determined according to the highest grade of fabric.

Customized Products

The models presented here are suggestions: they can all be customized to meet individual requirements. In addition to designing and manufacturing entirely customized furniture, Logiflex offers to simply modifying the dimensions of the models presented or to use non-standard colors.

Options

CAL 133

Logilife seats may receive a non-flammable lining compliant with California Technical Bulletin 133. Please take note the non-flammable lining does not alone ensure the product certification. Consult [p. 10](#) for more information.

Polyurethane Arm Cap

The optional arm cap increases durability for the armrests. It is replaceable if it becomes damaged.

Removable Head Cover

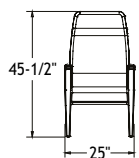

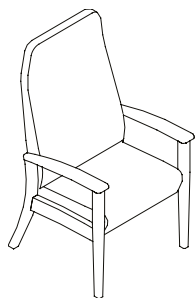

A removable slipcover for head area is available in order to reduce excessive wear of the back and facilitate cleaning.

Mika
Metal Armchairs

Manufacturing Standards: Mika Series

Construction | Armchairs*

The structural seat frame is made of welded steel for an increased strength and durability. Its assembly allows 3 levels of adjustments in height and 2 in deepness while the metal to metal connections allows individual components to be replaced without having to replace the entire chair.

*Feature not available for the general purpose chair.

Easy Cleaning

All Logilife chairs feature a vinyl moisture barrier with aerators that covers the underside of the seat. All models are also designed with a clearance space between the back and the cushion, facilitating maintenance and cleaning.

Wall Saver

Logilife chairs are specifically designed to prevent premature wear and damages by avoiding contacts between the back, the armrests and the surrounding walls.

Safe and Easy Ingress and Egress

The extended and rounded polyurethane armrests of Mika seats give the user optimal support for safe and easy ingress and egress.

Frame | Armchairs

The metal frame is in Satin Nickel welded steel. Logilife chairs are designed with molded backs and spring seat construction for optimal comfort and ergonomic support. Chair backs and seats utilize multi-density foam and legs are equipped with non-marking glides.

Weight Capacity | Bariatric Armchairs

Bariatric armchairs have a weight capacity of 750lbs.

California Technical Bulletin 117

The Celcor foam used meets or exceeds the California Technical Bulletin 117 norms.

Limited Lifetime Warranty

All Logilife furniture manufactured after August 1, 2012 is provided with a limited lifetime warranty.

Metal Finish

Metal finish for all Mika seats is Satin Nickel (SN)

Upholstery Specification

Please see section A-4 for upholstery specification.

Upholstery Specification

Logiflex offers its customers several methods of specifying the fabrics from different suppliers. Terms and conditions for approval and order are listed on [p. 10](#). It is also possible to combine more than one fabric for the same seat, at no additional cost. The price of the seat will be determined according to the highest grade of fabric.

Customized Products

The models presented here are suggestions: they can all be customized to meet individual requirements. In addition to designing and manufacturing entirely customized furniture, Logiflex offers to simply modifying the dimensions of the models presented or to use non-standard colors.

Options

CAL 133

Logilife seats may receive a non-flammable lining compliant with California Technical Bulletin 133. Please take note the non-flammable lining does not alone ensure the product certification. Consult [p. 10](#) for more information.

Removable Head Cover

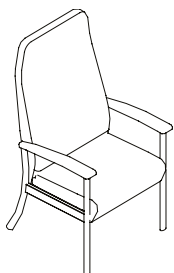

A removable slipcover for head area is available in order to reduce excessive wear of the back and facilitate cleaning.
